Dear Participant:

Re: Anthem Cyber-Attack

As you may know, Anthem has reported that it was the victim of a recent, very sophisticated external cyber-attack. Anthem stated that the attacks may have gathered participant and beneficiary data, including names, birthdays, Social Security numbers, telephone numbers, e-mail addresses, and addresses. Anthem does not believe that medical information or credit card information has been accessed. Anthem is working with the FBI and other authorities to assess the full impact of the attack.

The Fund contracts with Anthem to access the Anthem PPO network. The Trustees are deeply concerned and pursuing Anthem for more information, but at this time Anthem has not confirmed whether the Fund's participant data has been affected. The Fund's computer systems and Fund-maintained data have not been attacked.

The Trustees will continue to work with Anthem and keep participants informed. In the meantime, participants should be aware that scam e-mail campaigns are targeting current and former participants. These scams are designed to capture personal information (known as "phishing") and appear as if they are coming from Anthem and may include a "click here" link for credit monitoring. These e-mails are not from Anthem or the Fund. If you receive an email related to the cyber-attack:

- DO NOT click on any links in the e-mail.
- DO NOT reply to such an e-mail or reach out to the senders in any way.
- DO NOT supply any information on any website that may open if you click on a link in such an e-mail.
- DO NOT open any attachments that arrive with the e-mail.

Anthem may be sending informational e-mails to participants, but these e-mails will not request information from you or direct you to a link to another webpage. In addition, Anthem is not calling participants and beneficiaries regarding the data breach, and is not asking for credit card information or Social Security numbers over the phone. If you receive such a phone call requesting this information, do not provide the information.

Page 2

Anthem will provide identity repair services and credit monitoring to any affected individuals. Anthem has said that it will send information related to these services via U.S. mail.

As a precautionary step, you may wish to put a fraud alert on your credit file. A fraud alert tells creditors to contact you before they open any new accounts or change existing accounts. Members can call any one of the three major credit bureaus listed below. As soon as one credit bureau confirms a fraud alert, the others are notified to place fraud alerts. All three credit reports will be sent to the member, free of charge, for review.

Equifax	800-525-6285
Experian	888-397-3742
TransUnion Corp	800-680-7289

The Trustees will continue to communicate with Anthem and provide you with information. Please contact the Fund office with any questions. You can also visit Anthem's dedicated website regarding the cyber-attack ([www.AnthemFacts.com](http://www.AnthemFacts.com)) or call Anthem's dedicated toll-free number, 1-877-263-7995.

Sincerely,

Board of Trustees
